

NEW OUTLET SEEN TO RED FORK ROAD

Auto Club Raises Funds to Make Phoenix Passable for all Vehicles

DIVISION ROW RESTS

Committee to Wait for Property Owners' to Point to "Harrow Road" Plan

Immediate relief is in sight for those who use the West Tulsa road from the end of the city paving to the beginning of the Red Fork hard-surfaced highway, which is a part of the outlet from this city to the oil fields and to the principal cities of the state. The "harrow road" promises to soon be passable in all kinds of weather.

At a special meeting of the Automobile club, called by President George Beavers and held in the private dining room of Hotel Tulsa Friday noon, it was decided to get busy immediately and obtain sufficient funds to have the first 1000 feet of cinders and chata on Phoenix avenue, the thoroughfare paralleling Division street one block east, to be used until such time as Division street may be paved.

\$375 is Raised.

To show their determination Automobile club members while at the meeting donated as follows: J. A. Hull, \$100; Frank Reed, \$100; Mayor T. D. Evans, \$25; Street Commissioner O. A. Steiner, \$25; Remond, \$25; J. Lyons, \$25; Lawless Motor company, \$25; W. H. Horne, \$10; G. C. Rivers, \$10; E. A. Giese, \$10; H. C. Childs, \$10; and D. C. Powers, \$10, making \$375 paid in within ten minutes.

Mr. Hull was made chairman of the soliciting committee, with the privilege of choosing his assistants from the ranks of the club. By 4 o'clock Friday afternoon Hull had personally talked to officials of practically every business and in the city, and had been given substantial pledges from every one.

Will Begin Work Monday.

At least \$3,000 will be raised by the club. The entire amount, even though it be more than this, will be used to purchase materials to place on Phoenix avenue. Street Commissioner Steiner said city teams of workmen will be on hand to do the work, and the cost of removing the cinders and chata will be paid by the city.

JOINT SERVICE SUNDAY

Leg Hurt in Swim At Municipal Pool; Boy Wants Damages

Damages of \$5,000 were asked by Ralph Cooley, 16 years, in a suit filed in district court Friday against the City of Tulsa, for injuries received in town park lake August 31, 1920, when he cut his leg on a nail protruding from a float in the lake.

Cooley claims the city had control of the lake and through its agents rented bathing and swimming equipment. After obtaining a nail, Cooley entered the water, but soon afterward cut his leg on a protruding nail which he claims was negligently allowed to remain in the boat by agents of the city.

Holidays begin November 24. Exams begin November 24.

"Exams" ban of school life closed to all students, sophomore, juniors and seniors of Kendall college after holding sway in upper class rooms for several days. Test time comes every nine weeks, or twice during a semester, to upper classmen.

Examinations are administered every six weeks, or upon three occasions during a semester, to college freshmen and all classes in the academy. This does system of examinations, which continues, has won the confidence of the authorities because it was felt that frequent examinations helped underclassmen in their school work. Final examinations for the first semester will be held January 22 to 27.

Thanksgiving holidays will begin at Kendall Wednesday noon, November 24, and will close at 5 o'clock Tuesday morning, November 26.

**PROFESSOR HERE
FOR SOCIAL MEET**

Had of University Work in Sociology to Di- rect Convention

Delegates and speakers for the Oklahoma state conference of social work, began to arrive yesterday, when Professor G. H. Smith of Norman, head of the chair of sociology of Oklahoma university, came from Norman to preside over the sessions.

Preparatory to the meeting there will be addresses in each of the churches of the city on Thanksgiving evening.
